

NO, WE CANNOT TAKE YOUR DOG!

When I started this rescue 12 years ago, my mission was to help the abused, neglected, and discarded dogs on the West Coast and wherever else we are needed.

Our mission hasn't been to relieve you of the commitment you made to your dog when you took them in.

People have babies *and keep their dogs.*

People change careers *and keep their dogs.*

People's schedules get hectic, *and they keep their dogs.*

People move *and find a way to keep their dogs.*

People run into issues with manageable/trainable behavior, *AND THEY KEEP THEIR DOGS.*

These situations are not unique.

We didn't start this rescue to bail you out. I'm sorry; I know that may sound harsh. And yes, we know there are situations where people can no longer *care* for their dogs, and we help with those as much as possible.

We are receiving anywhere from 20-30 calls from people dumping their dogs- EVERY DAY!

For the love of Dog -- step up for your buddy. Show up for your dog. Show your dog the same passion and commitment you showed them the day you brought them home. They are not disposable!! They are living beings who feel pain, suffering, and abandonment.

Dogs are being euthanized every single day because the shelters do not have space. FRIENDLY. HEALTHY. HAPPY. ADOPTABLE. DOGS.

By the tens of thousands - EVERY DAY!

Your dog is no different from any of the dogs who are losing their lives every day, and if you give up on your dog, it will be next.

If you absolutely need to rehome your pet due to circumstances beyond your control or know someone who does, Please use these links to post the animal;
